Here's how it works...

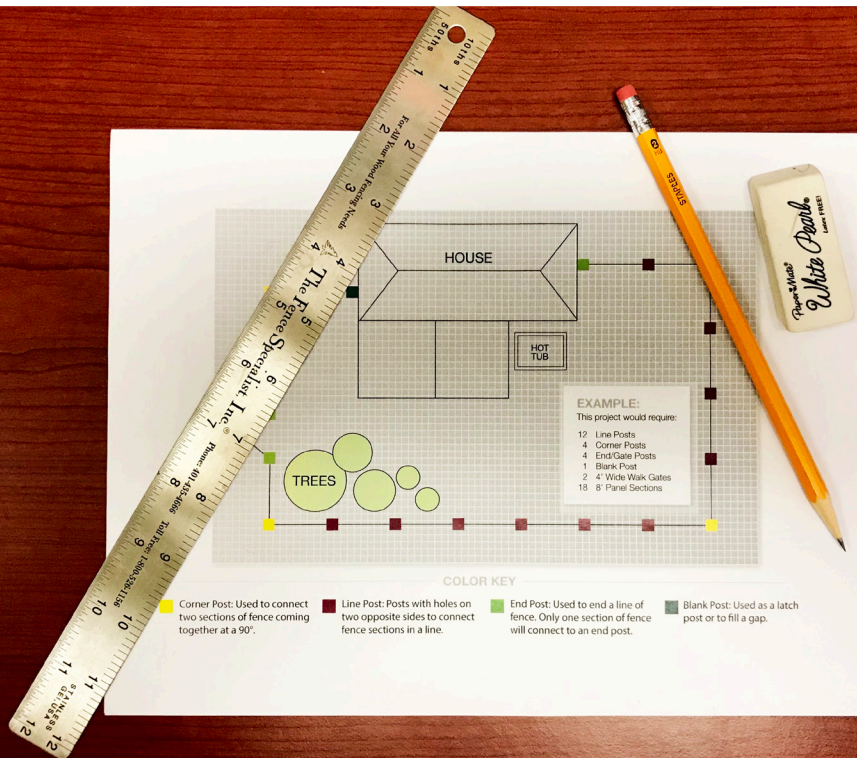

Choose the material and style that's right for you. Not sure? That's why we're here! Our pros can talk you through the options and features.

From taking measurements and obtaining the right permits to making sure you have all the fence panels, posts and tools you need -- we'll help you map it all out.

Follow the easy step-by-step instructions to install your fence. Don't worry. If you get stuck, we're just a phone call away.

What's next?

Submit all required plans and documents to obtain a permit from your town.

Call in a “mark-out” of your property. The public utility companies in your area will come and place markers (paint/flags) where there are any underground lines. Keep in mind, they will not mark your private sprinkler lines or pool lines that were installed privately.

Map out your property keeping the “mark-out” areas in mind.

Now you're ready for the fun part -- installing your new fence!

Remember, our pros are here to help from start to finish!
